## Professional Summary

Commercial operations and healthcare analytics leader with 20+ years of experience across Medicare, health insurance, claims, benefits, sales support, and operational execution. Combines deep healthcare knowledge with business intelligence, CRM reporting, KPI development, data validation, and process improvement expertise. Known for leading cross-functional initiatives and translating complex business needs into reliable reporting, scalable workflows, and actionable insights that strengthen forecasting, revenue visibility, decision-making, and accountability in regulated environments.

## Core Skills

Business intelligence | Commercial and sales operations | Salesforce CRM reporting and data management | Tableau and Power BI dashboard development | Advanced Excel analysis | KPI tracking and performance reporting | Forecast and pipeline support | Data validation and governance | Process improvement | Market research and business development | Cross-functional leadership | Stakeholder communication | Healthcare, provider, and payer analytics | Workflow documentation and reporting requirements | GitHub portfolio development

Analytics and Technology: Advanced Excel, Tableau, Power BI, Power Query, DAX, Salesforce CRM, data validation, dashboard development, KPI reporting, ETL, and data governance. Applied SQL, SQLite, Python, pandas, and scikit-learn through independent coursework and portfolio projects.

## Professional Experience

### Aetna, a CVS Health Company | Sales Administration Manager, Medicare

*New Orleans, LA | 2020–2025*

- Maintained Tableau dashboards and recurring reports covering provider information and Medicare Stars measures. Analyzed trends, validated data, and prepared leadership insights to support operational monitoring and Medicare performance initiatives.
- Executed data extraction, transformation, validation, and loading processes for Tableau and Salesforce dashboards and Excel-based partner reporting, improving the reliability and consistency of recurring reports.
- Consolidated Excel reports using partner and agent IDs, standardized names and date formats, and removed duplicate records by partner and reporting period, preventing duplicate counts and improving reporting consistency.
- Expanded Salesforce dashboards to connect events, leads, sales activity, and outcomes, giving field teams and senior leaders clearer visibility into opportunities, conversion trends, performance, and event ROI.
- Improved operational efficiency by 25% by leading reporting, system administration, and data-governance initiatives. Aligned processes with finance, compliance, operations, and leadership priorities while strengthening accuracy, consistency, and accountability.
- Trained agents and administrators on system updates, regulatory changes, and Annual Enrollment Period requirements; translated business needs into practical workflows and reporting requirements.

### Aetna, a CVS Health Company | Business Development

*Tampa, FL and Birmingham, AL | 2013–2020*

- Built Salesforce tracking structures that connected leads, sales, and event activity, improving pipeline visibility, follow-up discipline, and performance reporting for field teams and leadership.
- Coordinated more than 100 events annually across sales, marketing, compliance, and operations, ensuring accurate messaging, compliant execution, and timely follow-up.
- Built relationships with providers and community organizations; reviewed service trends and collaborated with internal teams to address gaps in the member experience.
- Partnered with internal stakeholders to translate market and community feedback into practical outreach priorities, reporting needs, and execution plans.

### **Independent Healthcare Analytics Projects**

Independent portfolio projects using public, synthetic, and constructed healthcare data to demonstrate data preparation, KPI development, dashboard design, quality assurance, and business-facing analysis. Projects contain no protected health information and were not commissioned, endorsed, or implemented by the named organizations or agencies.

### **CMS Medicare Analytics Portfolio**

- Built and validated Tableau dashboards from public CMS datasets to analyze Medicare enrollment, claims utilization, quality measures, Star Ratings, provider networks, and Part B cost trends, translating complex data into decision-oriented views.

### **Erlanger Service Area Analytics Portfolio**

- Developed five Tableau dashboards from public hospital, payer, quality, access, utilization, cost, and negotiated-rate data to support market research, service-area analysis, payer comparisons, and business-development insights.

### **Healthcare Revenue Cycle Analytics**

- Built a three-page Power BI dashboard and reproducible analytics pipeline using synthetic claims data to assess reimbursement, denials, underpayments, accounts-receivable aging, payer and facility performance, follow-up priorities, and responsible denial-risk governance using Power Query, DAX, Python, SQL, SQLite, and Excel/CSV.

### **Texas Healthcare Workforce Access & Community Need**

- Developed a multi-page Power BI dashboard from public CDC, HRSA, and AHRF data to compare county-level workforce shortages, medically underserved areas, provider and hospital-bed rates, rural and urban access, benchmarks, and community health indicators using Power Query, DAX, SQL, and Excel/CSV.

### **Additional Professional Experience**

#### **Physicians United Plan | Member Advocate**

Orlando, FL | 2012–2013 — Resolved complex benefits, claims, and appeals issues; communicated regulatory and system updates to members and internal teams.

#### **Village Home Care, LLC | Executive Assistant**

Ocala, FL | 2011–2012 — Managed HR, payroll, and compliance operations; developed standard operating procedures and maintained regulatory documentation.

#### **State of Wisconsin Department of Health Services | Office Operations Associate**

Milwaukee, WI | 2009–2011 — Supported income-maintenance programs by processing eligibility documentation, preparing statistical reports for leadership, maintaining procedures, and supporting hearings and appeals.

#### **RR Donnelley | Human Resources Associate**

Green Bay, WI | 2006–2009 — Managed payroll and personnel reporting for 200+ employees and supported benefits administration and eligibility verification.

#### **Kohler Company | Marketing Associate**

Kohler, WI | 2005–2006 — Prepared performance summaries and presentations for leadership reviews and coordinated cross-functional marketing initiatives.

#### **American Medical Security | Underwriting Associate and Medical Claims Case Manager**

Green Bay, WI | Underwriting: 2003–2005; Medical Claims: 2000–2003 — Reviewed eligibility data and risk factors, supported plan evaluation, and resolved complex medical claims by interpreting benefit provisions and collaborating with members, providers, and internal teams.
